(Extra select specimens slightly higher.)
We also carry a good selection of small evergreens,
potted, ranging in price from \$1.00 to \$2.75.

WE FEATURE IN OUR SALES YARD . . .

EVERGREENS (see listing)

We are especially proud of our evergreens and believe these to be the best. Ask us for the most suited evergreen for your particular spot.

BLOOMING PERENNIALS . . . can be transplanted with assurance when they are potted. Plant these for permanency. They will give many years of flowers and enjoyment. In the spring we have potted bleeding hearts, both the large flowered and fern leafed varieties. In their normal blooming season we will have potted iris, (the latest and best varieties), painted & shasta daisies, violas, dwarf phlox, artimisia silver mounds, plus many other of the latest varieties of spring flowering perennials.

During the summer months we feature phlox (ask how to keep these true to color) hemerocallis lythrum and climbing clematis, all in bloom and ready to plant. In the fall our selection of potted flowering hardy mums is showy and outstanding.

POTTED ROSES . . . varieties listed on another page. We recommend potted roses over dormant roses, because you are sure of success with them.

PEONY SHOW . . . In our sales room we keep a show of labeled peony varieties to help you select the varieties you like. Also we have an acre devoted to labeled varieties. We welcome you to browse thru and select your favorites.

ANNUALS . . . In May and June we have a fine selection of the latest and best varieties of annual & bedding plants. We have hybrid petunias, dwarf early blooming salvias, California giant pansies, etc. . .

CUT GLADS . . . Pick out your own individual flowers during our glad season, July 15 to Oct. 1st. Priced reasonable.

MELONS . . . Our cantaloupe ripen about the last week in Aug. and through Sept. We spray our melon fields to control leaf hopper and thus we have melons that are vine ripened and sweet. Also try our guaranteed watermelons.

GRASS SEEDS . . . See back page . . . the best seeds in bulk —also Scotts and Vaughan's Packaged seeds.

BULBS . . . Our bulb room is well known for its wide selection and quality. Pick out your own bulbs from open bins that have the picture of the variety on it. Hyacinths, tulips, daffodills, lillies, glads, begonias, gloxinias, caladiums, etc. Ask for the booklet "Beauty from Bulbs."

GARDEN SUPPLIES . . . All the latest insecticides, weed killers, fungicides, fertilizers, peat moss and soil conditioners.

Peace—canary yellow, edged pink	2.75
Rex Anderson—ivory-white	2.00

We recommend to YOU buying Potted Roses.
... they are sure to grow.

We pot our roses in February and keep them in a cool damp cellar. In doing this the roots will grow before the tops. This causes the plant to have strong growth. These plants can even be transplanted on hot days. They won't wilt, but keep right on growing as though they had never been moved, because the fine fibrous roots are undisturbed within the solid ball of earth. Plant losses are eliminated when you buy pot-grown No. 1 roses.

We do have packaged
roses early in the season.

ROSES

PLANTED FROM APRIL 15TH
THROUGH SEPTEMBER

Our roses are individually potted to insure you success. They are growing when you purchase them. These are the best roses that can be had.

Jiminy Crickets—coral orange ..	2.50

Planning Should Be Functional!

Young and old alike get a boost in morale from the dazzling display of color and dress that nature provides in well-kept, well-planted neighborhoods.

There are literally hundreds of flowering trees and shrubs adaptable to local climatic and soil conditions. Many of these bloom at other than springtime and, if properly selected, they will afford a succession of blooms for many months.

With proper plant selection, you can achieve the same degree of decorative harmony with trees, flowering shrubs and evergreens that you have in the inside of the house with carefully chosen paint, wallpapers and floor coverings.

Careful planning is essential . . . Owners of new as well as older homes are finding it helpful to consult their local nurseryman in planning, as well as planting the outdoor area. We will be glad to help you select the right plants for your soil to give you the special effects you desire.

Visitors get their first impression of your home as they pull into your driveway. Plan it so that you can get the best year-round effect.

Suggested Use of Shrubs and Trees

Shrubs Which Attract Birds

Shadblow, Barberry, High Bush Cranberry, Honeysuckle, Viburnums.

Shady Location

Snowhill Hydrangea, Viburnums, Pyracantha, Cotoneaster Alpine Currant

Dry Places

Barberry, Forsythia, Honeysuckle, Privet, Spirea Billardi, Viburnums

Winter Effect

Red Barberry, High Bush Cranberry, Euonymous Compacta, Dog Wood, Cotoneaster Divaricata

Autumn Color

Red Barberry, Viburnums, Purple Leaf Plum, Euonymous Compacta, Euonymous Alatus, Japanese Maple (Amur Maple), Washington Hawthorne

● OPEN DAILY . . . From 8:30 A.M. to 8:30 P.M.

Sunday . . . From 9 A.M. to 5:00 P.M.

Most ground cover plants are grown for their attractive evergreen foliage. Among the plants in this group are the Baltic Ivy, Winter Creeper, Myrtle and Euonymus. These are well suited to grow under trees, evergreens and other shady spots where grasses will not thrive. Also used on steep banks and slopes.

CHARLES and CARL KLEHM
in one of the Peony Fields

PEONIES

OUR SPECIALTY SINCE 1902

*COME IN AND BROWSE THROUGH OUR
SHOW FIELDS, WHERE PLANTS ARE
LABELED, FROM WHICH YOU CAN
MAKE YOUR SELECTION.*

OUR 1954 INTRODUCTION

77B—UNCLE BILL—Tall large flowers of deep rose pink; has strong stems that hold immense plate-like flowers. Makes an outstanding garden variety. \$25.00 per 3-5 eye division.

OUR 1953 INTRODUCTION

830A—PINK LEMONADE—Breathtakingly different. It is a medium sized, bomb-type peony with a single row of pink guard petals. The bottom half of the bomb itself is pure lemon-yellow which is topped by ruffled pink petals. These colors blend beautifully. It is tall and blooms early midseason. Won Blue Ribbon in 1950 Rockford Show in the not disbudded class. \$25.00 per 3-5 eye division.

OUR 1952 INTRODUCTIONS

76A—VIVID ROSE—A bright rose pink double, blooms late midseason. Medium height, strong stems with no stamens. An unusual color that stands out among other varieties. A good garden peony as well as a good cut flower. Price: \$5.00 per 3-5 eye division.

OUR 1951 INTRODUCTIONS

69B—CHARLIE'S WHITE—Medium sized white bomb. This variety does not have any pink in it but opens with a yellowish cast. Tall strong grower-proliferous. Blooms with Mons. Jules Elie or possibly 1 day earlier. Also beautiful in bud and has no stamens. Good keeper in storage. Price: \$40.00 per 3-5 eye division. Certificate of Merit, Rockford Peony Show, June 1951.

690—EMMA KLEHM—A large full rose-type very deep pink. This variety is not tall but has stiff stems with foliage to the ground. Blooms after Baroness Schroeder. Nice smooth bud and has no stamens. Good keeper in storage. Price: \$10.00 per 3-5 eye division. Certificate of Merit, Rockford Peony Show, June 1951.

Seedling Field of Peonies

WHY WE SHOULD GROW PEONIES

Here are some good reasons: They are rated among the most beautiful of all plants, both in plant and flower. They are easy to grow. Magnificent flowers may be produced with less care than that given almost any other flower. It is long-lived. An established plant will live and bloom for many years. There are thousands growing and blooming today that were planted fifty or more years ago. When you plant a peony, you plant it to last a lifetime. They may be grown in beds, borders or gardens by themselves or with other plants. They make attractive specimen plants on the lawn or in the garden. The blooms are large showy, of many forms and colors and long lasting. Many varieties are delightfully fragrant. Disease and insects rarely bother them. They make excellent cut flowers and give beautiful landscape effects. In short it is one of the most useful, beautiful, versatile, and altogether satisfactory plants known. It is truly the King of Perennials.

We grow many varieties that are not listed. If there are some you desire and are not listed, please inquire. They are likely available.

With every purchase we will give you FREE—"The Handbook of the Peony", published by American Peony Society. Ask for your copy. If you are interested in becoming a member of the American Peony Society, please inquire.
